DETAILED ACTION

Response to Arguments

1. The following is in response to the applicant's amendment dated 3/30/04. The examiner has considered these arguments. The examiner has found no references teaching or rendering obvious the applicant's composition claims 1-8. As no references have been found the examiner will rejoin claims 1-8 with the process claims of 9-12 as these claims depend from the allowable composition claims.

REASONS FOR ALLOWANCE

1. Claims 1-12 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. The closest prior art was found to be Corby et al (US 3,673,099), Sachdev et al (US 6,652,665), and Honda et al (US 5,798,323).
4. Corby teaches the removal of cured resins using compositions containing alkyl ammonium hydroxides and glycol ethers. Corby however fails to teach the combination of the fluorinated ammonium compound with the specific soluble amine of claim 1 in the specific proportions required.
5. Sachdev teaches processes and compositions for removing cured silicone. Sachdev teaches the use of quaternary ammonium fluorides such as those described in instant claim 1. Sachdev also fails to teach the combination of the fluorinated ammonium compound with the specific soluble amine of claim 1 in the specific proportions required.

Art Unit: 1751

6. Honda teaches stripping compositions containing the dimethylacetamide of instant claim 1. Honda however fails to teach the combination of the dimethylacetamide with the fluorinated quaternary compound of instant claim 1.

7. Therefore, the very specific combination of the organo-fluorine and the soluble amine in the proportions required by instant claim 1 have been found to be allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory E. Webb whose telephone number is 571-272-1325. The examiner can normally be reached on 9:00-17:30 (m-f).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yogendra Gupta can be reached on 571-272-1316. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
